

AUTOMOTIVE INDUSTRIES WELFARE PLAN

SUMMARY ANNUAL REPORT

For the Year Ended December 31, 2000

This is the annual report of the Automotive Industries Welfare Plan EIN 94-1133245 for the year ended December 31, 2000. The annual report has been filed with the Pension and Welfare Benefits Administration, as required under the Employee Retirement Income Security Act of 1974 (ERISA).

The Board of Trustees of the Automotive Industries Welfare Plan has committed itself to pay certain medical, dental, disability, accidental death and dismemberment, vision and prescription drug claims under the terms of the Plan.

Insurance Information

The Plan has contracts with Kaiser Foundation Health Plan, and PacifiCare to pay certain medical and prescription drug claims incurred under the terms of the Plan. Life insurance benefits are provided through an insurance contract with Hartford Life & Accident Insurance Company. Certain vision benefits are provided through a contract with Vision Service Plan. Certain dental benefits are provided through contracts with Safeguard, Golden West, and United Concordia. Total premiums paid for the contract years which ended within the Plan year ended December 31, 2000 were \$31,607,956.

Because the contract with Hartford Life and Accident Insurance Company is a so-called "experience rated" contract, the premium costs are affected by, among other things, the number and size of claims. Of the total insurance premiums paid during the contract years which ended within the Plan year ended December 31, 2000, the premiums paid under such "experience-rated" contract were \$404,714 and the total of all benefit claims paid under these experience-rated contracts during the Plan year was \$322,911.

Basic Financial Statements

The value of the Plan assets, after subtracting liabilities of the Plan, was \$15,718,826 as of December 31, 2000, compared to \$14,617,480 as of December 31, 1999. During the Plan year the Plan experienced an increase in its net assets of \$1,101,346. This increase includes unrealized appreciation or depreciation in the value of Plan assets; that is, the difference between

the value of the Plan's assets at the end of the year and the value of the assets at the beginning of the year or the cost of assets acquired during the year.
